Kill her.

No ...

Kill Vertin.

No ... I won't ...

Obey your master. Kill her!

Follow your instincts.

Follow my orders!

No ...

Obey! Kill her now!

Hey.

I said no.

What ...?!

Argh—

Arcana may be dead ...

But THEY have paved a path for us.

The Apostles Brotherhood will become THEIR followers, undertake THEIR trials, and embrace THEIR grace.

We all need the miracle THEY bestow.

We will be immortal.

Fire!

What reason could you have to kill your own men?

They mutinied and killed their superior officer.

The Apostles Brotherhood may have infiltrated our base.

The Apostles Brotherhood?

A notorious gang from the streets of São Paulo.

Our intel suggests Manus Vindictae's presence too.

São Paulo ... there isn't anything for me there.

No dances, no feasts ... nothing.

In this city, arcanists and humans live side by side.

Both are equally passionate, albeit touchy.

Violence is far from a means to an end here. It's a tool ...

And one all too readily used.

Damn ... W-Wait ...!

My apologies.

It seems I've killed the wrong people.
