Phew. Just in time.

Is this yours?

Ah, yes ...

Put it away, kid.

This shrine, only few tourists are willing to ...

Ahem! Only the locals know!

It has something to do with that comet myth I read about.

Some mythologies are the original translation of the Realm.

That's how we located that star.

It reaches Level 5 on Torino Scale.

Ah! Meteor shower! So many of them, as the news mentioned!

This Dīpa Festival will become a disaster.

It's all because of my sister, who I've only seen once in my life?

... is also my tutor.

Ms. Sherjah?!

Why ... How you find this place?

Heh heh ...

My dear children ...

Enjoy your Dīpa Festival.

The meteor shower is coming.

I'll smash that door open,

even if it takes the other arm of mine!

Not yet best part!

When did you last look up at the sky?

That's not how you look at a star.

And you shouldn't lower your head.
